## Ford f-Series Severe Duty Filter Kit

- Uses Donaldson's PowerCore Filtration Technology
- For Ford F250 – 550 series with 7.3 ltr Powerstroke diesel engine
- Replaces factory air induction system.

### Kit contains:

- New filter box with Powerstroke element
- Air restriction gauge (installed)
- Temperature sensor (installed)
- Air inlet duct
- Battery blanket
- Battery box plate
- Fasteners
- Instructions

### Product Features & Benefits:

- Severe duty – ideal for dirty & dusty operating conditions
- Three times or more efficient compared to average conventional pleated or reusable wire mesh filters.
- Straight – through air flow delivers powerful performance.
- Improved engine protection, no media movement or expansion.
- Installs in 30 – 40 minutes

**Higher efficiency for improved engine protection.  
Less restriction, greater power!**
